Subject: Petition Against the Duke Energy Rate Increase

Dear Commissioners:

As a Duke Energy electric customer, I encourage you to closely examine the Duke Energy electric rate proposal (2018-319-e) when it comes before you, Specifically, I am concerned that:

Duke Energy's proposal to increase the basic facilities charge, a fixed cost from \$8.29 to over \$28. This would make this mandatory fee one of the highest in the country and much higher than the other investor-owned utility in South Carolina which recently lowered its fixed cost.

The increase in this mandatory fee takes away customer control over my energy bill robs me of the full benefit of energy conservation efforts. It is important that you protect older consumers who may live on a fixed income.

Share your own thoughts with the SC Public Service Commission:

I concur with the above message. This is a blatant increase aimed at senior citizens who are already struggling on a fixed income. Why not aim this increase on your CEO's and top management who already make more money than they know what to do with. If I sound angry, I certainly am. How can you consciously do this to senior citizens.

Sincerely,  
Marsha Hillhouse
